Please describe a policy/goal that is part of your formal platform that benefits the LGTBQ+ community? *

We must focus on public safety as the number one priority. If people feel safe, they will ride BART. Second, I have publicly condemned incidents of hate, violence, harassment, discrimination, shunning and bullying against our passengers and employees. Most recently, the acts against LGBTQ, Asians, Asian Americans, and Pacific Islanders will not be tolerated in or around BART. BART is an essential public transportation system that I intend to make a welcoming place for all.

What makes you uniquely qualified for the office and how are you different or unique from the other candidates in your race? *

I am a proven leader that served on the Planning Commission to initiate smart growth initiatives for a downtown Union City BART station. As a leader serving as BART Director, I spearheaded systemwide replacement of fare gates to reduce fare evasion. I have consistently advocated for cleaner trains and stations. I advocated for BART to take their underutilized parking lots and create employment centers. I pushed for cities to be held accountable for creating housing near job centers to reduce commute time and improve ridership. I am the only licensed civil engineer on the BART board and have extensive experience in planning, design and construction, uniquely qualified to assess BART's \$1 billion annual budget infrastructure program.
